Skills

Technical Skills

- C/C++
- Java/Kotlin
- JavaScript
- Python
- SQL
- MongoDB
- Data Structures
- Linux
- AI/ML

Tools/Software/Frameworks

- Android Studio
- Visual Studio
- Git and GitHub
- Webstorm IDE
- Amazon Web Services (AWS)
- Next.js
- React.js
- npm

Languages Known

- English (Fluent)
- Hindi (Fluent)

Certification/Short Courses

- Machine Learning Certification - Coursera
- AWS-Certified Cloud Practitioner (Ongoing)

Additional Information

- Developed machine learning model for recognition of brain tumor with accuracy of 96%.
- Currently developing a fully functional Whatsapp clone as web-based and application.
- Pursued IoT course from NPTEL platform.

Kanishk Shukla

Results-driven software engineering student with a strong grasp of C++, Java, Python, Kotlin and worked on projects related with inventory management and application development. Proven ability to deliver quality projects with a keen eye for detail. Effective communicator and team player, eager to apply academic knowledge to real-world challenges in software development.

Work Experience & Projects

Software Engineer (Intern) - Walmart Global Tech

July 2023 - September 2023

- Implemented an inventory management system resulting in an overall efficiency increase of 14% in product handling.
- Handled task related to cost efficiency and had overall cost-cut by 8%
